PROFILE

I am a Frontend developer, I currently study on my own, specifically in JavaScript technologies, React Js, Vue Js, I like to work as a team, form a good working group to better develop our projects.

Passionate about the world of technology development and its entire ecosystem, I am excited to be able to enter fully and be able to evolve my skills more in this great environment.

EXPERIENCE

Graduate student at the Instituto Nacional de Aprendizaje (INA - Turrialba).

At the end of the degree, I did a supervised internship of approximately 3 months, where you work with various technologies: C#, HTML, CSS, JavaScript and SQL Server.

Currently I dedicate my time to carry out projects on my own, where I develop my skills and working methods in the technologies I manage.

EDUCATION

Graduated from high school in secondary education in Colegio Nacional Virtual Marco Tulio Salazar – Turrialba 2018.

Technical Degree specialized in programming computer applications – 2020 INA - Instituto Nacional de Aprendizaje.

ONLINE COURSES

React : hooks, router, redux, next (Nicolas Schurmann)
Curso Profesional de JavaScript (Marco Rivas)
Vue Js 3 (Ignacio bluweb)
